927 student lives saved

79% increase in domestic abuse incidents during the pandemic

61% increase in harassment incidents

2,400+ sexually explicit images involving minors

64,000 references to suicide and self-harm

## The State of Student Safety

During the 2019–20 school year, Gaggle analyzed more than 6.25 billion email messages, chats, and files.

150,000+ items warranted immediate action

288% increase in chats during the pandemic

28% increase in student lives saved

21% increase in explicit content during the pandemic

281 elementary aged students experimenting with drugs or alcohol

# A Student Safety Net That Saves Lives

Gaggle provides real-time analysis of students' school-issued online collaboration platforms to detect early warning signs of emotional distress, suicidal ideation, threats of violence, or illegal activity.

## Safety in Three Steps

### 1 | Content Analysis

**Machine learning technology** blocks potentially harmful content and images in students' school-issued accounts.

### 2 | Expert Review

An in-house team of trained safety professionals work **24/7/365** to evaluate content.

### 3 | Rapid Response

In severe situations, district-appointed contacts and local authorities are **notified immediately**, even after standard business hours.

“You can't put a price on a student's life in any way, shape, or form.”

**Carlos Lopez**  
Director of Technology  
Widefield School District 3

*Gaggle's mission is to ensure the safety and well-being of students and schools by leveraging people and technology. Let us help you create a safe learning environment for your students.*
